---

## Profile

---

I studied at the Faculty of Computers and Information, took several courses, and implemented numerous Laravel projects. I am seeking an opportunity to prove my competence

---

## Education

---

2020 – 2024

### **Faculty of Computers & Artificial Intelligence - Benha University**

This is my final year in college, and I have gained some experience through university activities and freelancing with external clients. Alongside my studies, I've been actively practicing and want to further enhance my skills and experience in any way possible to ensure a strong foundation for my career development

---
